

LED Channel End Caps, 5 Pairs per Bag, Durable Material Finish

- Sold in a bag of 5 pairs, 10 pieces total
- Seals open ends of LED channel extrusions
- Durable material construction for long-term use
- Tool-free installation at channel terminations
- Backed by a 1 year warranty

OVERVIEW

End caps for LED channel systems, sold in a bag of five pairs (ten pieces total). These caps are designed to seal the open ends of LED channel extrusions, providing protection against dust, debris, and physical damage during installation and long-term use.

Constructed from durable materials, the end caps deliver a clean, finished appearance at channel terminations while helping to safeguard internal components. Installation is straightforward, requiring no specialized tools or hardware.
