

Square End Caps for Square LED Channel, 5 Pairs per Bag

- Sold in bags of 5 pairs, 10 pieces total
- Designed for square-shaped LED channel profiles
- Durable construction resists damage over time
- Installs without specialized tools
- Suited for commercial and residential lighting projects

OVERVIEW

The 5-LC16-SCap Square End Caps close and finish the open ends of square LED channel profiles, providing a clean, professional appearance on completed installations. Sold in bags of 5 pairs (10 pieces total), these caps suit both commercial and residential lighting installations where a polished end treatment is required.

Constructed from durable materials, the caps resist damage and maintain their appearance over time. They are compatible with square-profile LED channels and install without specialized tools.
