

Opal Frosted Cover for LED Panel Fixtures, Diffused Light Output

- Opal frosted finish diffuses light for softer, uniform illumination
- Reduces glare and eliminates harsh shadows from fixture output
- Compatible with LED panel fixtures rated for 50000 h lifetime
- Backed by a 1 year warranty
- Suitable for both residential and commercial settings

OVERVIEW

The 5-LC1818-CV opal frosted cover is a lighting accessory designed for LED panel fixtures in commercial and residential applications. The frosted opal finish diffuses light output, reducing glare and eliminating harsh shadows to produce a softer, more uniform illumination across the space.

It is suited for environments where visual comfort and fixture aesthetics are a priority, pairing with LED fixtures rated for extended service life. The cover is backed by a 1 year warranty.
