

Opal Frosted Cover for LED Linear Fixtures, 50,000 h LED Lifetime

- Opalescent frosted finish diffuses light for even distribution
- Rated for 50,000 hour LED lifetime
- Constructed from durable materials for long-term use
- Backed by a 1-year warranty
- Compatible with a range of standard LED linear fixture profiles

OVERVIEW

The Opal Frosted Cover is a diffusion accessory designed for use with LED linear fixtures in commercial and residential applications, including offices, retail environments, and general interior spaces. Its opalescent frosted finish softens and distributes light output evenly, reducing glare and improving visual comfort across the illuminated area. The cover is constructed from durable materials and is designed to integrate with a range of standard light fixture profiles. It supports an LED lifetime rating of 50,000 hours and is backed by a 1-year warranty.
