

Black Frosted Cover for LED Drywall Lighting Profile, 1 Year Warranty

- Black frosted finish diffuses light and reduces visible hotspots
- Designed as a cover accessory for LED linear drywall profiles
- Backed by a 1-year manufacturer warranty
- Compatible with LED systems rated for 50,000 hour lifetime

OVERVIEW

The black frosted cover is a replacement or accessory component designed for use with drywall lighting profiles and LED linear fixtures. Its black finish and frosted surface provide a professional aesthetic suitable for commercial and industrial lighting installations where appearance and light diffusion quality are considerations.

The frosted finish diffuses light output from the underlying LED fixture, reducing visible glare and hotspots while maintaining a clean, uniform appearance. The black coloring provides contrast and a refined look appropriate for architectural or presentation-focused environments.

The cover is backed by a 1-year warranty and is intended for use with LED systems rated up to 50,000 hours of operating life.
