

Opal Frosted Cover for LED Strip Channel, 3m Length, 50000h LED Life

- Opal frosted finish diffuses light for uniform, glare-reduced illumination
- 3m length fits standard LED strip channel installations
- Conceals internal components such as LED strips and wiring
- Compatible with LEDs rated for 50,000 hours of operation
- Backed by a 1 year warranty
- Suited for both residential and commercial installations

OVERVIEW

The 5-LDW1213E-CV is an opal frosted cover designed for LED strip light channels, providing a diffused light output that reduces glare and produces a uniform, soft illumination across the fixture face. It is suited for both commercial and residential lighting installations where a clean, finished appearance is required.

The frosted opal finish conceals internal components such as LED strips and wiring, presenting a polished exterior while maintaining light transmission. The cover is constructed for durability and long-term use, and is designed for straightforward installation onto compatible LED channel profiles, supporting LEDs rated for 50000 hours of service.

The cover is backed by a 1 year warranty.
