

Drywall Lighting Profile End Caps, Sold as 5 Pairs per Bag

- Sold as 5 pairs per bag for multiple profile runs
- Designed specifically for drywall lighting profile channels
- Provides a finished, closed termination at profile ends
- Pair configuration ensures matched caps for both ends of a run

OVERVIEW

End caps designed for use with drywall lighting profiles, sold in packs of five pairs per bag. They finish the open ends of a linear drywall profile channel, giving installers a clean, closed termination point at each end of the run.

Each bag contains five matched pairs, allowing multiple profile runs to be completed from a single package without ordering individual caps.

APPLICATIONS

- Drywall recessed lighting channel installations
- Cove lighting profile terminations
- Linear LED channel end finishing
- Architectural drywall lighting runs
