

Opal Frosted Cover for LED Linear Fixtures, Drywall Profile Diffuser

- Constructed from opal glass for a durable, long-lasting cover
- Frosted finish evenly diffuses light and reduces glare
- Fits standard-sized drywall lighting profile fixtures
- Rated for 50,000 hours of LED lifetime
- Backed by a 1-year warranty
- Easily cleaned with routine dusting or wiping

OVERVIEW

The Opal Frosted Cover is a glass diffuser accessory designed for drywall lighting profiles and standard LED linear fixtures in commercial and residential applications. Its frosted opal glass construction diffuses light evenly, reducing glare and eye strain in spaces where controlled, uniform illumination is required.

The cover is constructed from opal glass for durability and long-term serviceability, with an LED lifetime rating of 50,000 hours when paired with the fixture. The frosted finish minimizes direct glare, making it appropriate for occupied work environments and common areas. Maintenance is straightforward, requiring only routine dusting or surface wiping.

The product is backed by a 1-year warranty.
