

Silicone End Cap for LDW2513FLEX Drywall Flex LED Channel

- Silicone construction for flexible, snug fit on channel end
- Purpose-built to match the LDW2513FLEX profile geometry
- Seals open channel end against dust and debris intrusion
- Provides a clean, finished termination point at channel ends

OVERVIEW

The 5-LDW2513FLEX-Cap is a silicone end cap made specifically for the LDW2513FLEX drywall flex LED channel. It caps the open end of the extrusion, giving installers a finished termination point in drywall ceiling and wall applications.

The cap fits the profile geometry of the LDW2513FLEX channel, closing off the extrusion to keep dust and debris out of the channel interior during and after installation.

SPECIFICATIONS

MECHANICAL

Material	Silicone
Mounting	Drywall

APPLICATIONS

- Drywall ceiling LED channel terminations
- Drywall wall-mounted LED channel terminations
- Cove lighting channel end finishing
- Architectural linear lighting installations
