

Opal Frosted Polycarbonate Cover for 5-LDW3515 LED Strip Light, 50,000 h Rated

- Constructed from durable polycarbonate material
- Opal frosted finish diffuses light for uniform output
- Reduces glare and harsh shadows from LED source
- Provides shielding against dust and moisture ingress
- Compatible accessory for 5-LDW3515 fixture series
- Rated for 50,000-hour LED lifetime and 1-year warranty

OVERVIEW

The 5-LDW3515-CV is an opal frosted polycarbonate cover designed as a compatible accessory for 5-LDW3515 series LED strip light fixtures. Its primary function is to diffuse light output, reducing glare and harsh shadows for a more uniform illumination profile in commercial and industrial installations.

Constructed from polycarbonate, the cover offers resistance to impact and provides a degree of protection against dust and moisture ingress, helping maintain fixture reliability over time. The opalescent finish softens the appearance of the light source without requiring modifications to the host fixture. Installation is designed to be straightforward and compatible with the existing fixture mounting system.

The accessory carries a 1-year warranty and is rated for use with fixtures having a 50,000-hour LED lifetime.
