

End Caps for 5-LDW3515 LED Strip Channel, 1 Pair

- Sold as a matched pair for the LDW3515 channel
- Caps the open ends of the LDW3515 drywall lighting profile
- Compatible with LDW3515 channel rated for 50,000 hour LED lifetime
- Backed by a 1 year warranty on the LDW3515 system
- Straightforward installation for professional or retrofit use

OVERVIEW

The 5-LDW3515-Cap end caps are designed specifically for use with the LDW3515 LED strip channel and are sold as a pair. They provide protection for the open ends of the channel, contribute to installation stability, and deliver a finished appearance consistent with the LDW3515 profile.

Installation is straightforward, making these end caps suitable for professional contractors and qualified installers working on new installations or retrofit applications.

The LDW3515 channel these end caps are matched to carries a 50,000 hour LED lifetime rating and a 1 year warranty.
