

Trimless Drywall Aluminum LED Profile
for Hidden Linear Lighting, 38x14mm,
White

- Trimless design for hidden, frameless linear lighting installation
- Internal channel dimensions of 38×14mm
- Aluminum construction for recessed drywall or plaster mounting
- White finish for seamless architectural integration
- 3-meter profile length for continuous linear runs

OVERVIEW

The 5-LDW3814 is a trimless drywall aluminum LED profile designed for concealed linear lighting installations. With internal dimensions of 38×14mm and a white finish, it is intended to be embedded directly into drywall or plaster ceilings and walls, producing a clean, frameless appearance with no visible housing once installed.

The 3-meter length makes it suitable for continuous runs in commercial and residential architectural lighting applications.

SPECIFICATIONS

MECHANICAL
