Fixtures, 50,000h Rated, 1 - Year
Warranty

- Opal frosted finish diffuses light for a soft, glare-reduced glow
- Compatible with LED linear fixture assemblies
- Rated for LED light sources up to 50,000 hours of operating life
- Backed by a 1-year manufacturer warranty

OVERVIEW

The Opal Frosted Cover is a diffuser accessory designed for LED linear fixtures, providing a soft, uniform light output by reducing glare and hotspots from exposed LED arrays. It is suited for commercial and architectural interior applications where light quality and fixture appearance are priorities.

The frosted opal finish diffuses light evenly across the fixture surface, producing a gentle, consistent glow while maintaining the aesthetic integrity of the installation. The cover is rated for use with LED sources up to 50,000 hours of operating life.

The product is backed by a 1-year warranty.
