

End Caps for LED Floor Lighting Profiles, 1 Pair per Bag

- Sold as 1 pair per bag for finishing two profile ends
- Designed for floor lighting profile end termination
- Supports 50,000-hour rated LED lifetime of paired profiles
- Backed by a 1-year warranty
- Provides dust and contact protection at fixture ends

OVERVIEW

These end caps provide a clean, finished appearance at the termination points of floor lighting profiles used in LED linear fixtures. Sold as a set of two, they suit commercial and industrial lighting installations where a professional, sealed result is required at profile ends.

The caps help protect fixture ends from dust and incidental contact, supporting the long-term integrity of the installation and complementing the profile's rated 50,000-hour LED lifetime.

Covered by a 1-year warranty.
