

Opal Frosted Cover for LED Linear Fixture, 118 In. Length

- Frosted opal surface diffuses light for reduced glare
- Length of 118 inches for continuous linear runs
- Width of 9.84 inches for compatible fixture housings
- Rated LED lifetime of 50,000 hours
- Backed by a 1-year warranty

OVERVIEW

The Opal Frosted Cover is a lighting accessory designed for LED linear fixtures, measuring 9.84 inches wide by 118 inches in length. It is intended to replace or supplement the diffuser on compatible linear fixture housings, providing a finished appearance suitable for commercial and industrial interior applications.

The frosted surface diffuses light output, reducing direct glare and producing a softer, more uniform illumination across the coverage area. The cover is constructed for straightforward installation and is suited to a range of interior environments and design styles.

The associated LED source carries a rated life of 50,000 hours and is backed by a 1-year warranty.
