- Adhesive backing allows installation without extra hardware
- Low -profile design maximizes usable wall space
- Rated for compatibility with LED fixtures up to 50,000 -hour lifetime
- Backed by a 1 -year manufacturer warranty
- Sleek design blends with a range of interior decor

OVERVIEW

The 5-LF2211A-Clip is a wall mount clip designed to secure LED linear fixtures and related components to wall surfaces. It is intended for use in commercial and industrial installations where a clean, low -profile mounting solution is required.

Constructed for durability and repeated use, the clip features an adhesive backing for straightforward installation without additional hardware. Its low -profile design is suitable for a range of interior environments where space efficiency and accessibility are priorities, and it is rated for use with LED fixtures having a lifetime of up to 50,000 hours.

The clip is backed by a 1 -year warranty.
