

End Caps for LED Strip Channels, 5 Pairs per Bag

- Sold in bags of 5 pairs, 10 individual end caps total
- Designed for use with standard LED strip light channels
- Finishes channel terminations for a clean appearance
- Helps protect channel interior from dust and debris
- 1 year warranty coverage

OVERVIEW

End caps designed for use with LED strip light channels, sold in bags of 5 pairs (10 individual caps). These accessories provide a finished appearance at channel terminations and help protect the interior of the channel from dust and debris.

Each bag includes enough end caps to finish multiple channel runs, supporting consistent installation across a project. The caps are intended to pair with standard lighting profile channels used in commercial and residential LED strip installations.

SPECIFICATIONS

OPTICAL
