

End Caps for LED Strip Channel — 2-Piece Set

- Sold as a 2-piece set for channel end termination
- Constructed from high-quality materials for durability
- Suitable for furniture, architectural, and DIY applications
- Provides a polished, finished look to channel installations
- Backed by a 1-year warranty
- Compatible with LED strips rated for 50,000-hour lifetime

OVERVIEW

These end caps provide a clean, finished appearance on LED strip channel installations. Sold as a set of two, they are suitable for use in furniture applications, architectural structures, and DIY fabrication projects where a polished termination point is required.

The caps are constructed from high-quality materials intended to support both the durability and aesthetics of the overall installation, complementing stair lighting profiles and similar channel systems.

The caps carry a 1-year warranty, and are intended for use with LED strip systems rated up to 50,000 hours of operation.
