

LED Strip Channel End Caps, 2-Piece Set, 1-Year Warranty

- Includes two end caps per set for complete channel end sealing
- Backed by a 1-year manufacturer warranty
- Compatible with LED strip systems rated for 50,000-hour lifetime
- Constructed from durable material to prevent transit and storage damage
- Designed to fit compatible LED strip channel profiles for a finished look

OVERVIEW

The 5-LW0610A-Cap end caps are a 2-piece accessory set designed to fit compatible LED strip channels, providing protective sealing at open channel ends. They serve a dual purpose: preventing physical damage to channel extrusions during transportation and storage, and delivering a finished appearance in completed installations.

Constructed from durable materials, these end caps are built to secure channel openings and protect internal components from incidental contact or debris. Their design is intended to complement the profile of the channel, maintaining a clean visual finish on exposed ends.

The set is backed by a 1-year warranty and is intended for use with LED strip systems rated for a 50,000-hour lifetime.
