

Opal Frosted Cover for LED Linear Fixtures, 50,000 h Rated, 1 - Year Warranty

- Made from opal frosted glass for diffused light output
- Rated for 50,000 hour LED lifetime
- Compatible with various LED linear fixture types
- Designed for straightforward field installation
- Backed by a 1 - year warranty

OVERVIEW

The Opal Frosted Cover is a lighting accessory designed for use with LED linear fixtures in both commercial and residential installations. Constructed from opal frosted glass, it diffuses light output evenly across the fixture length, reducing glare and producing a uniform illumination pattern suited to a range of interior environments.

The frosted opal material softens direct light transmission, making it appropriate for applications where visual comfort and even light distribution are priorities. The cover is designed for compatibility with various fixture types and is intended for straightforward field installation, with an associated LED lifetime rating of 50,000 hours.

The product is backed by a 1 - year warranty.
