

LED Channel End Caps, 2-Piece Set, 1-Year Warranty (Discontinued)

- 2-piece set covers both ends of one channel section
- Protects and conceals internal LED strip components at termination points
- Backed by a 1-year manufacturer warranty
- Compatible with LED channels rated for 50,000 hour LED lifetime
- Simple installation with no specialized tools required

OVERVIEW

The 5-LW1013-Cap end caps are a 2-piece accessory set designed to terminate and finish the open ends of compatible LED channels. They provide edge protection and a clean, finished appearance on installed channel runs, suitable for both commercial and residential lighting applications.

Each set covers both ends of a single channel section, securing the internal components and presenting a polished profile at termination points. Installation is straightforward and requires no specialized tools.

The set is backed by a 1-year warranty, consistent with the LED strip lifetime rating of 50,000 hours for the compatible channel system.
