

Black Plastic End Caps for Recessed LED Channels, IP65, 5 Pairs per Bag

- Sold in bags of 5 pairs, 10 caps total
- Black plastic construction for a finished channel appearance
- IP65 waterproof rated for moisture-exposed installations
- Backed by a 1-year warranty
- Rated for use with LEDs carrying a 50,000 h lifetime

OVERVIEW

These black plastic end caps close off the open ends of compatible recessed lighting profiles, providing a finished appearance in commercial and industrial LED strip installations. Sold in bags of 5 pairs (10 caps total), they serve as a practical finishing accessory for contractors and installers completing channel-based LED strip runs.

The caps are molded from plastic with a black finish and carry an IP65 waterproof rating, suiting them to installations where moisture exposure is a concern. They are backed by a 1-year warranty.
