

Opal Frosted Black Cover for LED Strip Channel, 8.2 ft / 98 in (2.5 m)

- Opal frosted diffusion reduces visible LED hotspots
- Black finish for installations with visible channel assembly
- Length of 8.2 ft / 98 in (2.5 m) per cover
- Designed to pair with compatible LED strip channels

OVERVIEW

The 5-LW1213-CV-BK is an opal frosted cover designed for use with compatible LED strip channels. The frosted finish diffuses light output, reducing visible hotspots along the strip and producing a uniform linear illumination effect.

The black finish suits installations where the channel assembly remains visible and a darker aesthetic is preferred. Each cover measures 8.2 ft (98 in / 2.5 m) in length, matching standard channel run lengths.

SPECIFICATIONS

MECHANICAL

Length	2.5 m 8.2 ft
Finish	Black, opal frosted
