

End Caps for LED Strip Channel, 5 Pairs per Bag

- Sold in a bag of 5 pairs for multi-run installations
- Precision-fit tolerances for a secure channel closure
- Backed by a 1-year warranty
- Compatible with LED strip channels rated for 50,000 h lifetime

OVERVIEW

These end caps are designed to provide a clean, finished termination for LED strip channels. Sold in pairs, they are suited for a range of applications including commercial installations, light industrial projects, and general construction or renovation work. Constructed from quality materials with precision-fit tolerances, the caps deliver a secure closure that protects channel ends while maintaining a professional appearance.
