

Wall Mount Clip for LED Fixture Installation, 10-Pack

- Sold in bags of 10 clips per package
- Compact form factor suits varied interior environments
- Enables tool-free field adjustments after initial mounting
- Backed by a 1-year warranty
- Production-level inspection for structural integrity

OVERVIEW

The 5-LW1213-Clip is a wall mount clip designed for securing LED fixtures and related components in commercial and industrial installations. Its compact form factor suits a range of interior environments, and the design allows for straightforward installation and field adjustments without specialized tooling. Sold in bags of 10 for multi-fixture projects.

Each clip is manufactured to consistent quality standards, with production-level inspection intended to ensure structural integrity under normal mounting loads.

The clip is backed by a 1-year warranty.
