

End Caps for LED Channel Profiles, 5 Pairs per Bag

- Bag includes 5 pairs (10 individual end caps)
- Easy-fit design installs without tools or hardware
- Seals channel ends against dust and moisture ingress
- Compatible with LED channel profiles rated to 50,000 h LED lifetime
- Backed by a 1-year warranty

OVERVIEW

End caps designed to seal the open ends of LED channel profiles, protecting the interior from dust and moisture ingress. Each bag contains five pairs (10 individual caps), providing enough coverage for multiple channel runs in a single installation.

Constructed from durable materials with an easy-fit design, these caps install without additional tools or hardware. The low-profile form maintains a clean finished appearance on exposed channel ends in both commercial and industrial applications.
