

Black Matte Diffuser Cover, 2500mm Length, LED Channel Lens

- Black matte finish reduces glare and visual hot spots
- 2500mm overall length for extended linear runs
- Rated for 5000 hours of LED lifetime performance
- Compatible with standard LED channel and linear systems

OVERVIEW

The 5-LW1606A-CV-BK is a black matte diffuser cover measuring 2500mm in length, designed for use with compatible LED channel or linear lighting systems. It provides a finished, low-glare appearance suitable for architectural and commercial installations where light diffusion and aesthetic consistency are required.

The black matte finish minimizes glare and softens the visible light output of the LED source, supporting a uniform illuminated line across the run length.

SPECIFICATIONS
