

## Opal Frosted Black Cover for LED Channel, 9.8 ft / 118 in (3m)

- Opal frosted finish diffuses LED light for uniform appearance
- Black cover color for a low-visibility, blended profile
- Length of 9.8 ft / 118 in (3 m) per piece
- Designed to fit compatible LED channel systems

### OVERVIEW

The 5-LW1707-CV-BK is an opal frosted black cover designed for use with compatible LED channel systems. Running 9.8 ft (118 in / 3 m) in length, it provides a clean, diffused appearance that conceals the LED strip within the channel while softening light output for a uniform finish.

It is suited for linear lighting installations in commercial and architectural applications where a smooth, glare-reduced light line is desired along the channel run.
