

Clear Cover Lens Replacement Panel, 1 - Year Warranty, 50,000 h Rated

- Clear, transparent construction preserves optical clarity
- Shields internal lighting components from dust and scratches
- Rated to support 50,000 hour LED lifetime
- Backed by a 1-year warranty
- Suitable for both personal and professional lighting installations

OVERVIEW

The 5-LW1707-CVC is a clear cover lens replacement panel designed to protect and preserve lighting fixtures from dust, surface scratches, and routine wear. Its transparent construction maintains optical clarity, making it suitable for both commercial and professional installation environments where light transmission and component protection are priorities.

The cover is rated to support an LED lifetime of 50,000 hours and is backed by a 1-year warranty, reflecting durability suited to sustained daily use in lighting profile assemblies.
