

Wall Mount Clip for LED Fixture Mounting, Compact Low - Profile Design

- Constructed from high-quality materials for a secure, durable grip
- Compact, low-profile form factor for discreet wall placement
- Backed by a 1-year warranty
- Suited for LED fixtures rated to 50,000 hours of operating life
- Designed for straightforward installation on lightweight fixtures

OVERVIEW

The 5-LW1715-Clip is a wall mount clip designed for securing LED fixtures and related components in commercial and office environments. Constructed from high-quality materials, it provides a secure grip suitable for lightweight mounting applications.

The clip features a compact, low-profile form factor that allows for discreet placement without interfering with surrounding installations. Its design is intended for straightforward installation and reliable hold in organized lighting or display setups.

The clip carries a 1-year warranty and is rated for use with LED fixtures rated to 50,000 hours of operating life.
