

End Caps for LED Strip Channel, 5 Pairs per Bag, Multiple Finishes

- Sold as a set of 5 pairs (10 pieces) per bag
- Available in multiple sizes and finishes for different channel profiles
- Provides a polished, finished termination at channel endpoints
- Protects channel openings from dust, debris, and incidental contact
- Backed by a 1-year warranty

OVERVIEW

These end caps provide a clean, finished termination for LED strip light channels used in recessed lighting profiles. Sold in a bag of 5 pairs, they suit commercial and architectural lighting installations where a polished appearance is required at channel endpoints. The caps also serve a protective function, helping to guard channel openings against dust, debris, and incidental contact.

Constructed from durable materials for longevity, these end caps are designed for straightforward installation and are available in multiple sizes and finishes to accommodate different channel profiles and project requirements.
