

Surface Wing Aluminum LED Channel Profile, 17mm x 15mm, 98-Inch Length

OVERVIEW

The 5-LW1715A is a recessed-mount aluminum LED channel profile designed to house and protect flexible LED strip lighting in commercial and residential linear lighting installations. With an overall cross-section of 24.9mm wide x 14.5mm tall (0.98" x 0.57") and an interior channel accommodating LED strips up to 12mm wide, it provides both thermal management and physical protection for the strip. Available in lengths of 1m, 2m, 2.5m, 3m, and 4m (max 13.2 ft).

Constructed from 6063-T5 aluminum with a high-standard anodized finish, the profile is offered in Silver Anodized (standard), White Painted, and Black Anodized. Compatible diffuser covers in Transparent, Milky/Opal, Opal Matt, and Black are available separately, fabricated from Bayer-grade PC/PMMA material with a press-in installation. Stainless steel mounting clips in Silver, White, and Black are also available to support surface-mount clip installation as an alternative to direct screw fixing.

No certifications are confirmed in the available product documentation. Consult your Poli LED & Signs representative for compliance documentation applicable to your jurisdiction.
