

Round Aluminum LED Channel Profile, 20x20mm Anodized, 6.5 ft (2m) Length

OVERVIEW

The 5-LW2020-6.5 is a 20x20mm round aluminum LED channel profile in anodized silver finish, supplied in a 6.5 ft (2m) length. Constructed from 6063-T5 aluminum with a high-standard anodized surface treatment, it provides both heat dissipation and physical protection for LED flexible strip installations. The profile accommodates strips up to 17mm in width.

The PC milky diffuser delivers 86% light transmission with medium coefficient diffusion, producing uniform brightness while minimizing visible LED hotspots. The diffuser installs via push-in assembly and is rated for operating temperatures from -50°C to 100°C. Compatible covers are sold separately under SKUs 5-LW2020-CV-6.5 and 5-LW2020-S-CV-6.5.

SPECIFICATIONS

Operating temp	-50 to 100 °C	Dimensions	20 x 20 mm profile, 0.67 in (17 mm) usable width; available lengths: 1 m, 2 m, 2.5 m, 3 m, 4 m
