

End Caps for LED Strip Channels, 5 Pairs per Bag

- Bag contains five pairs of end caps for multi-run installations
- Secures firmly onto channel ends to prevent damage and fraying
- Provides a clean, finished appearance on open channel ends
- Compatible with standard LED strip channel profiles
- Backed by a 1 year warranty

OVERVIEW

These end caps are designed to provide a clean, finished appearance on the open ends of LED strip light channels. Each bag contains five pairs, making them suitable for multi-run installations where a consistent, professional look is required across a project.

Constructed for durability, the end caps secure firmly onto channel ends to prevent damage and maintain a polished finish over time. They are compatible with standard channel profiles used in architectural, furniture, and general lighting applications.
