

Wall Mount Clip for LED Panel Fixtures, Adhesive Backing, 1 - Year Warranty

- Adhesive backing resists accidental detachment during use
- Compatible with various wall surface types for versatile mounting
- Tool-free installation and removal simplifies fixture servicing
- Backed by a 1-year manufacturer warranty
- Rated for use with fixtures having a 50,000 hour LED lifetime

OVERVIEW

The 5-LW2626-Clip is a wall mount clip designed to secure LED panel fixtures and similar objects to wall surfaces. It is suitable for a range of installation environments and compatible with various surface types, making it a practical hardware component for commercial and industrial lighting installations.

The clip features a strong adhesive backing that resists accidental detachment, and its design allows for straightforward installation and removal without specialized tools. Construction is intended for durability and long-term service in organized, fixed-mount applications.

The clip is backed by a 1-year warranty for reliable long-term use.
