

Opal Diffuser Panel, 2500mm Length, Silver Finish

- Opal diffuser panel measuring 2500mm in length
- Silver finish for consistent appearance across installations
- Rated for LED light sources with a 5000 hour lifetime
- Designed as a component diffuser for linear LED luminaire housings

OVERVIEW

The 5-LW3010-CV is an opal diffuser panel measuring 2500mm in length, designed as a replacement or component diffuser for compatible linear LED luminaire housings. It is intended for commercial and industrial lighting installations where uniform light distribution and glare reduction are required.

The diffuser is finished in silver and is rated for use with LED sources having a lifetime of 5000 hours, aligning it with standard linear luminaire replacement cycles.
