

## Opal Frosted Cover for LED Lighting Profiles, 50,000 h LED Lifetime

- Opal frosted material diffuses direct light for uniform output
- Rated to support LED lifetime up to 50,000 hours
- Backed by a 1-year manufacturer warranty
- Sleek profile design suited to commercial interior fixtures

### OVERVIEW

The Opal Frosted Cover is a diffusion accessory designed for LED lighting profiles, intended for commercial and professional interior applications including offices, hotels, and similar environments where controlled, uniform light output is required. The opal frosted material softens direct light, reducing glare and producing a diffused illumination suitable for occupied spaces that demand a clean, finished appearance.

The cover is rated to support LED lifetimes of up to 50,000 hours when used with compatible lighting profiles, and is backed by a 1-year warranty.
