

Opal Frosted Cover for LED Linear Fixtures, 50,000 h Rated

- Opal frosted finish diffuses light for even, glare-reduced output
- Fits seamlessly onto compatible LED linear light fixtures
- Rated for 50,000 hours of LED lifetime
- Backed by a 1-year manufacturer warranty
- Timeless design suited to varied interior settings

OVERVIEW

The opal frosted cover is a diffusion accessory designed for LED linear fixtures, providing a soft, even spread of illumination while reducing direct glare. It is suited for commercial and industrial environments where uniform light distribution and a clean fixture appearance are required.

The frosted opal finish minimizes harsh light output and distributes illumination evenly across the covered surface, making it appropriate for a range of interior applications including offices, retail spaces, and corridors.

The assembly carries a 1-year warranty and is rated for an LED lifetime of 50,000 hours.
