

LED Strip Channel End Caps, 2 - Piece Set, 1 - Year Warranty

- Sold as a 2 - piece end cap set
- Provides secure, stable fit on compatible LED strip channels
- Backed by a 1 - year warranty
- Compatible with LED strips rated for 50000 hour lifetime
- Suited for furniture, millwork, and construction applications

OVERVIEW

The 5-LW5035-H-Cap end caps are sold as a 2-piece set designed to close and finish the open ends of compatible LED strip channels. They provide a clean, professional termination that protects internal components from dust and incidental contact while contributing to a finished appearance on exposed channel runs.

Constructed for durability, these end caps are suited for use across a range of applications including furniture integration, architectural millwork, and general construction installations where a secure, stable fit is required.

The end caps are backed by a 1-year warranty and are intended for use with LED strip systems rated for up to 50000 hours of operation.
