

Spring Clip Mounting Accessory for Recessed LED Extrusion Installations

- Recesses LED extrusion profiles for a flush, seamless surface finish
- Spring clip design provides secure mechanical hold without adhesives
- Compatible with LED extrusion systems rated to a 50,000-hour lifetime
- Backed by a 1-year manufacturer warranty

OVERVIEW

The 5-LW7036A-H-SC-SC is a spring clip accessory designed to recess LED extrusions into surface installations, providing a flush, seamless appearance and a secure mechanical hold. It is intended for use in commercial and architectural lighting applications where a clean, integrated extrusion finish is required.

The clip is engineered for compatibility with LED extrusion systems rated to a 50,000-hour LED lifetime, supporting long-term recessed lighting installations.

This accessory is backed by a 1-year warranty.
