

Opal Frosted Cover for LED Linear Fixture, Diffused Light, 2 m Length

- Opal frosted finish diffuses light for soft, even illumination
- Compatible with LED linear fixtures rated for 50,000 -hour lifetime
- Backed by a 1 -year warranty
- Suitable for drywall lighting profile installations
- Clean, finished appearance for architectural applications

OVERVIEW

The 5-LWU8016-2M-CV is an opal frosted cover designed for use with LED linear fixtures, commonly installed within drywall lighting profiles for architectural and commercial applications. Its frosted texture diffuses light output, reducing glare and producing a soft, even glow suitable for cove, perimeter and general illumination lines.

The opal finish provides a clean, uniform appearance and pairs with LED components rated for a 50,000 -hour lifetime, supporting long -term installations with minimal maintenance. The cover is compatible with a range of fixture configurations and profile lengths.

The product carries a 1 -year warranty.
