

Inner Corner Connector for LDU8016 LED Strip Channel, 1 - Year Warranty

- Inner corner connector for LDU8016 LED strip channel system
- Secures channel sections at interior corner junctions
- Constructed from durable materials for long-term reliability
- Low-profile design preserves finished channel appearance
- Backed by 1-year warranty
- Compatible with LED strips rated for 50,000-hour lifetime

OVERVIEW

The 5-LWU8016-CNI is an inner corner connector designed for use with the LDU8016 LED strip channel system. It provides a stable connection at interior corner transitions, supporting structural and visual continuity of architectural lighting installations in commercial and residential applications.

Constructed from durable materials, the connector is engineered for straightforward installation and long-term reliability. Its low-profile design maintains the finished appearance of the channel assembly while securing channel sections at inner corner junctions.

The connector is backed by a 1-year warranty and is compatible with LED strips rated for 50,000 hours of operating life.
