

Aluminum Beam Fixer for 5-P434 Mounting Accessory

- Fixer accessory compatible with aluminum beam profile 5-P434
- Supports LED lighting installations rated for 50,000 hours
- Backed by a 1-year warranty

OVERVIEW

The 5-P13 is a mounting fixer designed for use with the aluminum beam profile 5-P434. It serves as a mechanical attachment accessory, securing the aluminum beam in position for compatible LED lighting installations.

The accessory is intended for LED lighting systems rated for extended service life, supporting installations rated up to 50,000 hours of operation.

The 5-P13 carries a 1-year warranty.
