

Stainless Steel Spring Clip for 25mm Round Fixtures, Mechanical and Industrial Use

- Stainless steel construction for corrosion resistance
- Designed for 25mm diameter round fixtures
- Rated for compression, extension, or torsion applications
- Withstands heavy loads and repetitive cycling
- Rated service life of 50,000 hours
- Backed by a 1 -year warranty

OVERVIEW

The 5-WF96-25-Clip is a stainless steel spring clip designed for round fixtures with a 25mm diameter. It is intended for use in mechanical, automotive, and industrial machinery applications where a reliable retention or fastening component is required.

Constructed from stainless steel, this clip offers corrosion resistance and durability under heavy loads and repetitive cycling. It is suitable for compression, extension, or torsion applications and maintains performance across a range of temperature conditions, with a rated service life of 50,000 hours and a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
--------------	----------

MECHANICAL

Product Dimensions	25mm diameter
Material	Stainless Steel

ORDERING

Warranty	1 y
----------	-----

APPLICATIONS

- Mechanical engineering assemblies
- Automotive components
- Industrial machinery
- Round fixture retention and fastening
