

Aluminum Extrusion Wall Frame, 25mm Round Open System, 2.44m Length

- 25mm round-profile cross-section for a clean, low-sharp-edge appearance
- 2.44m extrusion length per unit
- Constructed from high-quality aluminum for corrosion resistance
- Open system design supports integration with other building components
- Suitable for both indoor and outdoor installations
- Backed by a 1-year warranty

OVERVIEW

The 5-WF96-25 is a 25mm round-profile aluminum extrusion wall frame measuring 2.44m in length, designed as an open system for commercial and construction applications. Its round cross-section provides a clean aesthetic while minimizing sharp edges, making it suitable for both interior and exterior installations.

Constructed from high-quality aluminum, the profile offers inherent corrosion resistance and structural stability. The open system design allows integration with compatible building components and supports straightforward assembly and disassembly, accommodating renovation or relocation requirements.

The extrusion carries a 1-year warranty.
