

Plastic Corner Fitting for Round Shape LED Frame, 1 - Year Warranty

- Molded from high-quality plastic for corrosion and impact resistance
- Reinforces corner junctions on round-shaped LED frame assemblies
- Snap-fit design requires no additional tools or hardware
- Backed by a 1-year manufacturer warranty
- Rated for compatibility with LED components at 50000 h lifetime

OVERVIEW

The 5-WF96-CNP is a plastic corner fitting designed to reinforce and stabilize round-shaped LED frame assemblies. It seats directly onto round frame profiles, providing structural support at corner junctions and preventing unwanted movement or frame distortion during installation and long-term use.

Constructed from high-quality plastic, the fitting resists corrosion, impact, and general wear, making it suitable for demanding installation environments. Its precision-molded design ensures a consistent, secure fit without requiring additional tools or hardware modifications.

The fitting is backed by a 1-year warranty.
