

43-Inch Indoor Touch Screen Floor Kiosk with Camera, Windows 10, and Wi-Fi

OVERVIEW

The 6-TM43-CT-CAM is a 43-inch indoor floor-standing touch kiosk designed for commercial environments such as retail, hospitality, corporate lobbies, and public information displays. It features a 43-inch IPS LCD panel at 1920x1080 resolution with capacitive touch input, runs Windows 10 (license not included) on an Intel Core i5 3rd-generation processor with 4 GB RAM and 64 GB storage, and includes a 5.0 MP front-facing camera. The unit ships on integrated wheels for repositioning and connects via Wi-Fi, Bluetooth, RJ45, and USB. It accepts 110–240 VAC input with a US plug and is rated for indoor use only.
