

## 43-Inch Indoor Floor Stand Totem Display, Android 7.1, Capacitive Touch, IPS 1080p

### OVERVIEW

The 6-TM43-CT is a 43-inch indoor floor stand totem display designed for continuous 7x24-hour digital signage operation. Running Android 7.1 with a capacitive touch interface, it is suited for lobbies, retail environments, and other commercial interior applications requiring interactive wayfinding or content delivery.

The display features an IPS panel with a 178°/178° viewing angle, 1080p resolution, 16:9 aspect ratio, 3000:1 contrast ratio, and 350 cd/m<sup>2</sup> brightness. Connectivity includes 5G Wi-Fi, RJ45 Ethernet, HDMI-IN, SD card slot, and USB ports. Integrated dual 5W speakers provide onboard audio output. The unit supports video formats including H.264, H.265, MPEG-4, and up to 1080p playback.

No certifications are confirmed in the available source data. Warranty terms are not specified. Contact Poli LED & Signs for compliance documentation and project-specific configuration options.
