

XH Power Feed Cable, Single Side, RGB Flexible LED Sheet, 12 in.

- Single-side power feed configuration for RGB flexible LED sheets
- 12-inch cable length for flexible routing to power source
- High-quality connectors for stable power delivery
- Rated for 50,000-hour LED lifetime when used with compatible sheets
- Backed by a 1-year warranty

OVERVIEW

The 7-FS-XH-CA4-12 is a 12-inch power feeding cable designed for use with RGB flexible LED sheets. It provides a single-side power connection, making it a practical solution for delivering power to RGB flexible LED installations in commercial and architectural lighting applications.

The cable features high-quality connectors engineered for stable power delivery and reliable performance over extended use. It is compatible with various power sources and is constructed for durability in demanding installation environments, supporting a rated LED lifetime of 50,000 hours.

The cable is backed by a 1-year warranty.
