

Double-Sided XH Power Feed Cable for RGB Flexible LED Sheet, 3 in.

- Double-sided XH connector for RGB flexible LED sheet power feeding
- 3 in. cable length for compact, low-profile connections
- Rated for indoor and outdoor lighting installations
- Supports LED sheets rated for a 50,000-hour lifetime
- Backed by a 1-year warranty

OVERVIEW

The 7-FS-XH-CA4D-3 is a double-sided XH power feed cable designed to connect and deliver power to RGB flexible LED sheets. At 3 inches in length, it is intended for use in lighting installations where a reliable, low-profile power connection is required between the LED sheet and its power source.

Constructed from high-quality materials, the cable is rated for both indoor and outdoor applications, offering durability suited to a range of commercial, decorative, and architectural lighting setups. Its double-sided design supports efficient power transmission and is intended for straightforward integration into existing RGB flexible LED sheet configurations.

The cable is backed by a 1-year warranty and is intended for use with RGB flexible LED sheets rated for a 50,000-hour LED lifetime.
